### Education :

- UP BOARD 2014 10th  
82.5%
- UP BOARD 2016 12th  
91.6%
- GALGOTIAS UNIVERSITY  
2022 (B.TECH) 73.3%

### Interest :

Video Editing , Graphics Designing ,  
Travelling , Sketching

### Personal Competencies :

- Team Management
- Leadership
- Communication Skills
- Adaptive

### Technical Competencies :

- MS Office 365
- Operating System
- Data Base

### Objective :

As a recent B.Tech graduate, I bring a blend of technical proficiency and creative aptitude, honed through coursework and practical experiences. Proficient in MS Office 365, programming, and multimedia design, I am eager to embark on a career journey that allows me to apply and expand upon these skills. During my academic tenure, I delved deep into programming, acquiring problem-solving expertise validated by certifications. Concurrently, my passion for creative expression led me to explore multimedia design, where I developed a keen eye for visual aesthetics and storytelling. Now, seeking an entry-level role, I am enthusiastic about contributing fresh perspectives and learning from seasoned professionals. My aim is to contribute effectively to projects while absorbing insights from diverse experiences, nurturing a career characterized by continuous growth and impactful contributions. Motivated by curiosity and driven to succeed, I am excited about opportunities that foster an environment of innovation, collaboration, and professional development. I aspire to apply my technical acumen and creativity to solve challenges, contributing meaningfully to the collective success of the organization

### Academic Projects :

Title : Global Warming

Objective : Awareness app for Weather conditions Description:  
Basic knowledge about weather, organic seeds, recent govt. policies and crops etc.
